

EVERY TIME I TURN AROUND

(Neil Murray)

Well I thought that we were over and done
I thought that you had really gone
and just when I was feelin down
I see you coming back to me now

We gotta stop meeting like this
but you know I can't resist your kiss
cause every time I turn around
I stumble into you somehow

Well I thought that it was over but it just gets bolder
so let's not quibble around
If we're gonna get back onto the track
and lift ourselves right off the ground

Lets not argue the toss
I know you want to be the boss
and lead me on a merry dance
toast it all to sweet romance.

For this is how it's meant to be
God keeps putting you to me
cos everytime I turn around
I stumble into you somehow
