

SPIRIT

(Neil Murray/Sammy Butcher)

So, very precious
And it's livin' deep within the land
It's a secret, a secret written
And it's sleepin' deep within the earth
It's so, very precious
And we say
Kurrunpatju yungu
Kurrunpatju yungu
Spirit comes
Spirit comes

And many hands have held it together
Reachin' back and forwards across time
And I speak to you from the future
And I speak to you from the past
And we say
Kurrunpatju yungu
Spirit comes

And its so, very precious
Can you get the feeling of what I'm sayin'
Many hands, touching over many generations
Holding, holding so dearly
And we say
Kurrunpatju yungu
Spirit comes
